Interactive Web Capability for Community-based Organizations

HOME | MISSION | PROGRAMS | EVENTS | STAFF | NEWSLETTER | FEEDBACK | FAQ | CONTACT US

Everyday you deal with changing business conditions, budgetary problems, compliance issues, processing confidential data and information, and being able to communicate effectively and efficiently with your Board as well as your Constituents. Your ability to keep them informed of timely issues, trends, activities and other critical information is what makes your organization valuable.

Your challenge is to do it easily, inexpensively and yet when appropriate very securely.

CommPak from interPak provides you the Web-based interactive tools to 'push' out requests to your community and 'pull' them back to your Web site. This allows you the ability to **easily** and **economically** provide multitudes of data, meaningful information, and trends analysis to your Constituents and other interested parties.

OPEN SOLUTION

- CommPak is designed to be expandable and economically maintainable!
- New features and capabilities can be added to allow your system to evolve with you and your organization's requirements – and provide a protection on your investment.

CONTENT MANAGEMENT

- Your staff can easily manage all content – no knowledge of HTML or special software is required.
